SCNAC In Focus

A closer look at the work of two regional councils

SCNAC SOCIAL CARE NURSING ADVISORY COUNCIL — PASSIONATE ABOUT CARE

| PEOPLE | PRACTICE | PARTNERSHIP | PROGRESS |

A vibrant, diverse and unique Adult Social Care Nursing workforce

South West SCNAC — IN FOCUS

What we are working on

Creating a student network to strengthen representation and involvement, alongside a prevention programme focused on Dementia and Suicide Prevention. A champion model will engage the health and social care workforce, supported by a 2027 regional roadshow.

Why it Matters

Creating meaningful opportunities for student nurses in social care, while promoting greater awareness of dementia prevention. By sharing simple, evidence-based measures, we aim to help people reduce their risk or delay deterioration and improve outcomes for individuals and families.

Expertise we are looking for

Student representatives, roadshow venues and financial support, alongside audiologists and opticians to strengthen its dementia prevention work. Specialist and education working groups are also open to non-council members, helping ensure all projects remain collaborative and evidence-based.

North West SCNAC — IN FOCUS

What we are working on

Raising the profile of Learning Disability Nursing through regional workforce collaboration, real career stories and stronger education and placement pathways.

Why it Matters

A visible and valued RNLD workforce improves recruitment, retention and professional pride, while supporting better outcomes for people with learning disabilities and autistic people.

Expertise we are looking for

RNLDs, people with lived experience, students, educators, universities, social care providers, researchers and regional workforce partners.
